HOW TO USE GUIDE

HYDRO CLEAN

POWERFUL ALGAECIDE FOR CRYSTAL CLEAR POOLS

elara industrial corporation

Hydro Clean is a powerful long term algaecide that keeps your pool water clean, healthy and sparkling all season long. It is chlorine compatible and works to prevent algae growth and maintain crystal clear water.

CRYSTAL CLEAR WATER ALL SEASON LONG!

STEP-BY-STEP GUIDE

1 TEST YOUR WATER

Ensure pH is between 7.2 – 7.6 and chlorine levels are within the recommended range.

2 SHAKE WELL

Shake the Hydro Clean bottle well before use.

3 DOSAGE

Add 25 ml of Hydro Clean per 10 000 litres of pool water (2.5 ml per 1 000 litres).

4 APPLY TO POOL WATER

Pour the measured dose directly into the pool, preferably near return jets with the pump running.

5 KEEP CIRCULATION RUNNING

Keep the pump running for at least 2 – 3 hours to ensure even distribution.

IMPORTANT TIPS

- Use regularly for best results.
- Compatible with chlorine.
- Environmentally and children friendly.
- Store in a cool, dry place away from direct sunlight.
- Ideal for long term algae control.
