HYPER FLOC
HOW TO USE GUIDE

HIGHLY CONCENTRATED
EFFECTIVE & FAST ACTING
TRUSTED RESULTS

CRYSTAL CLEAR WATER MADE EASY

Hyper Floc is a highly concentrated flocculant that removes fine suspended particles from pool water, helping your filter remove dirt more effectively and restoring crystal-clear water. It also improves filter efficiency and reduces maintenance time.

OPTION 1: CLEAR GREEN OR CLOUDY POOL WATER (FLOCCULATION TREATMENT)

DOSAGE:
500ml Hyper Floc per 50,000 litre swimming pool.

1. Adjust pool water pH to approximately 7.2.
2. Remove the automatic pool cleaner from the pool.
3. Set the filter valve to RECIRCULATE (or BYPASS if fitted).
4. Pour the entire bottle of Hyper Floc slowly around the pool.
5. Brush walls and floor thoroughly to distribute the product.
6. Run the pump for 4–6 hours.
7. Switch off the pump and allow the pool to stand for 12–24 hours.
8. Vacuum the settled dirt directly to waste.
9. Top up pool water and rebalance pH and chlorine levels.

TIP: Best results are achieved when the pool water temperature is above 18°C.

OPTION 2: IMPROVE FILTRATION & WATER CLARITY (REGULAR MAINTENANCE)

DOSAGE:
- 10ml Hyper Floc per 10,000 litres water.
- Approximately 3–4 capfuls per 50,000 – 100,000 litre pool.

1. Backwash your filter.
2. Switch off the pump.
3. Pour the recommended amount into the skimmer box or weir.
4. Restart the pump.
5. Repeat after each backwash or whenever the water becomes slightly cloudy.

BENEFITS

- ✓ Clears cloudy water quickly
- ✓ Improves filter efficiency
- ✓ Removes fine suspended particles
- ✓ Reduces cleaning time
- ✓ Safe for potable water
- ✓ Crystal-clear, sparkling water
- ✓ Suitable for regular maintenance
- ✓ Trusted by pool owners for over 20 years
- ✓ Environmentally and children friendly
- ✓ Conforms to WHO specifications for potable water

IMPORTANT NOTES

- Do not swim during a full flocculation treatment.
- Always vacuum settled debris to waste.
- Store in a cool place.
- Keep out of reach of children.
- Follow label instructions carefully.

CLEARS CLOUDY WATER FAST | EXCELLENT FILTER AID | SAFE & APPROVED FOR POTABLE WATER | ENVIRONMENTALLY FRIENDLY | CHILDREN FRIENDLY
